

# Model DS8000

## Cylinder Speed Gate

DS8000 Cylinder Speed Gate is currently the most popular and classic type of swing gate, with four major advantages:

- \*The cylindrical shape has a diameter of only 168mm, which does not require much space and can be installed in any narrow area.
- \*The door is made of a single piece of glass from top to bottom, which makes it very safe and difficult for anyone to jump over or crawl under.
- \*The single door can be made up to 900mm width for wide passageway, wheelchair, and pedestrian with large luggage can also pass.
- \*The two doors work together can support largest 1800mm width, which allows a large group of people to pass through together without waiting and queueing.

## Features

- Two way or one way working.
- Top is made of black tempered glass, support integrated with any type of access control systems.
- Arm width can be 900-1800mm.
- Lower power consumption.
- Low noise, system runs smoothly.
