

**KCC**  
GROUP

**Architectural Hardware**  
2022 / 2023

KCC are known for our extensive range of door hardware and ironmongery, including closing devices, cylinder locks, door furniture, locks, latches, panic exit devices and hinges.

Products to satisfy each unique requirement – be it aesthetic, usability, security, regulation or budgetary, with over 20,000 product lines stocked and ready for immediate delivery.

Within this lookbook you will see some variations of door levers, pull handles, locks, hinges and accessories but our full range of product datasheets, technical information and specifications can be found on our online library, **KCC Datastore**.

**Want instant access to thousands of technical specifications?**

**Registration is free! Get your unique Username & Password**

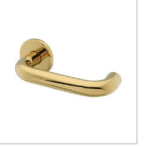

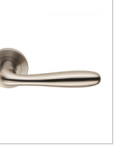

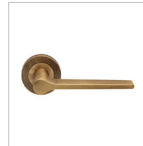

Over the past number of years we've collated and digitised the technical specifications of more than 4,000 products - empowering your team and ours with instant access to all the detail they require. A huge online library of datasheets, specifications, certifications, warranties, and more. All the detail you need at your fingertips, all available for immediate access, in our datastore and technical product library.

Registration is free and will give you a unique username & password. Visit [thekcgroup.com/kcc-datastore](http://thekcgroup.com/kcc-datastore) to register.

## A wide range of brands and finishes to choose from

# Hinges

Our Hinge solutions are engineered to provide the foundation for door performance and can be matched to the weight, use level and aesthetic of any door in any material.

The range includes ball bearing hinges, maintenance free hinges, pivot hinges, anti-ligature hinges and continuous hinges, as well as fully concealed hinges in a variety of colours and finishes.

We can hinge doors up to 500kg in weight and will always have a solution to match the function of the door.

View the full range along with certification / test evidence & product datasheets on KCC Datastore.

# Locks & Latches

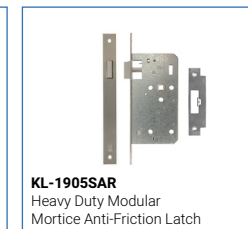

KCC's range of locks and latches are designed to deliver a long life and high performance and are engineered to work with both sprung and unsprung handle sets.

The range encompasses everything from commercial quality heavy duty locks through to residential latches and locks. Functions include sash locks, night latches, escape locks, bathroom locks and dead locks as well as special purpose locks such as anti-ligature locksets.

All locks are performance tested to hEN12209, CE marked, most are Certifire approved.
