

## Did you know that KCC do **Architectural Hardware**

### High performance, sleek design

#### Door Furniture

KCC's comprehensive ranges of co-ordinated door furniture, door hardware and lever door handles provides a huge choice of style and finish with high performance components at the core. Grouped into range families to meet the differing requirements in the construction market, all products are tested to the relevant standards including EN1906. Bespoke handles and trim are also available to your design.

#### Locks & Latches

KCC's range of locks and latches are designed to deliver a long life and high performance and are engineered to work with both sprung and unsprung handle sets. The range encompasses everything from commercial quality heavy duty locks through to residential latches and locks. Functions include sash locks, night latches, escape locks, bathroom locks and dead locks as well as special purpose locks such as anti-ligature locksets. All locks are performance tested to hEN12209, CE marked, most are Certifire approved.

#### Hinges

A range of CE marked, performance tested to hEN1935 door hinges. Most are Certifire approved. Our Hinge solutions are engineered to provide the foundation for door performance and can be matched to the weight, use level and aesthetic of any door in any material. The range includes ball bearing hinges, maintenance free hinges, pivot hinges, anti-ligature hinges and continuous hinges, as well as fully concealed hinges in a variety of colours and finishes.

## Closing Devices

KCC's extensive range of door closing devices cover all possible applications and meet the relevant standards including fire performance, accessibility and durability whilst maintaining a clear design aesthetic. The range includes overhead door closers, concealed overhead door closers, floor springs, transom closers and jamb mounted door closers. All are available in a wide range of metal and coloured finishes and have optional features such as hold open, electro mechanical hold open and back check.

## Accessories

From hat and coat hooks, door viewers through to postal boxes and fire signage, our hardware accessories complete our hardware solution. Accessories include bathroom and WC fittings, bolts, door restrictors, door vents, door viewers, drop and door seals, fire and smoke seals, glass, handrails, hold open devices, mailbox systems, plates, signage, sockets, thresholds, vision panels.

## Over 20,000 product lines in stock

## Cylinder Locks

KCC's cylinder locks offer a wide range of security options from fully restricted, secure & patented key systems to simple stand-alone cylinders. Our secure systems are performance tested to BS EN1303 and fire tested to EN1634. We can cater for extensive master keying complexity, with as many as 36,000 locks operated by a masterkey, and can supply a wide range of cylinder types such as euro-profile, UK oval, scandinavian oval, rim, rim mortice, cam locks and padlocks.

Key duplication options range from locally available to high security patent protected supply with letter of authority. Advanced options include anti-barricade function, this ensures that the cylinder cannot be prevented from being opened from the outside by holding the thumbturn on the inside. Classroom function is used in schools to ensure that the door can only be unlocked from the inside.
