

KCC Group are pleased to introduce a CPD seminar on

Specifying partitioning

for Architects and Designers

This interactive seminar will provide you with a recommended process for and an understanding of the key issues faced when specifying partitioning systems.

The seminar is approximately 45 minutes in duration and is held in your offices for convenience. KCC will also happily provide lunch for all attendees.

Attendees can expect to learn about:

- How to specify partitioning to meet performance requirements
- The relevant Building Regulations, standards and performance parameters, including fire standards and how to meet environmental building requirements
- Various factors affecting the control of sound in a commercial environment
- The key issues and potential risks when specifying partitioning

For more information or to book a seminar, please contact us on the details below.
