

KCC Group in partnership with Safehinge Primera are pleased to introduce the CPD seminar

Together, we design for good

for Architects and Designers

This newly available 45 minute RIBA CPD presentation highlights the importance of effective design within mental health environments, focusing on the key design challenges faced within the mental health sector and how engagement and co-production with all stakeholders is key to offering safer and more therapeutic environments, whilst also aiding recovery. Attendees will learn how to enhance mental health spaces with innovative doorsets & hardware design, incorporating the latest technology to protect people during vulnerable times.

The seminar will cover:

- Product design and innovation - past and present - outdated products versus new technology
- Cutting-edge strategies for creating safe, therapeutic environments
- Practical insights from industry experts on overcoming design challenges
- Innovative technology solutions to enhance safety and well-being
- The importance of co-production, consultation and co-operation for all stakeholders
- The stages of the design and specification process
- What results can be achieved through effective consultation, design and implementation
- The future - new innovations
