

KCC Group are pleased to introduce an educational seminar on

Fit-Out & Interior Solutions

for Architects, Designers & Building Professionals

Our end-to-end solutions for commercial office fit-out projects are tailored to meet the unique needs of your building, whether you're fitting-out a new office building, or retrofitting an existing healthcare facility or refurbishing a hotel. From initial planning and design to post-fit-out considerations and future adaptability, KCC Group are your trusted partners for fit-out projects.

Seminar Overview

Providing a comprehensive range of market leading building products and integrated solutions including architectural hardware, specialist glazing, automatic doors, and access control systems, this 45 minute seminar looks at the integrated solutions KCC can offer on fit-out projects from specification through to on-site installation and ongoing maintenance.

Attendees can expect to learn about:

- Different door automation options for your building needs
- Integrating different access control systems to enhance security and monitor the flow of people into and around your building
- The appropriate use and placement of timber and steel doorsets
- Fire prevention systems such as fire & smoke curtains, fire-rated glazing or fire doors
- The use of glazed partitioning to create a flexible use of space for building interiors
- Specialist environment considerations eg. Mental Health facilities, operating theatres, cleanrooms, datacentres

Book for your team

This seminar is approximately 45 minutes in duration and our team are always happy to facilitate an open Question & Answer session or discuss your specific project requirements. Get in touch to book a seminar for your team on
